

COMPLETE ICE ARENA SERVICES

Annual Preventive Maintenance Service Plan

Objective

Offer a complete factory recommended ice resurfacers service.

Goals

Reduce costly down time, unwanted service calls, create a better sheet of ice, and extend the life cycle of the ice resurfacers.

Annual Preventative Maintenance Service Plan Outline (PMSP)

All parts are provided with this program. All PMSP work is preferred to be completed at CIAS's Shop or can be performed on site to work around the facilities schedule. The pros of sending us your ice resurfacers is a shop full of parts, tools and a wash bay to clean your resurfacers when the service is complete.
